

SREE NARAYANA NURSING COLLEGE
STONEHOUSEPETE, CHINTHAREDDYPALEM, NELLORE
JAL SHAKTI ABHIYAM-29th JULY 2019
REPORT
THEME: “WATER CONSERVATION”

With the concept of **water is necessary not only for drinking but also day to day life purpose, without water we human beings will die. Water is required for all living things in the world.** Sree Narayana Nursing College NSS unit had conducted an awareness program on water conservation activities in Kamakshi Nagar on 29/7/2019. In which NSS volunteers and Mrs. Kalpana, HOD of Community Health Nursing, Ms. Parandhamaiah, R.O plant supervisor, Narayana Medical College and Hospital and Kamakshi Nagar people were participated in this program.

By this program we focused on water conservation and also assessed water purity by TDS meter and explained about rain water conservation system and also shown related videos to the participants. The purity of water values like

Hand Boring Pump – 2345 TDS

Water shed motor – 2250 TDS

As per Government of India Water Control Board the drinking Water TDS Values is:-Less than-300-Excellent

300 to 600-Good

600 to 900 –Fair

900 to 1200- poor

Above 1200 – Unacceptable

Through this program we found that the village water is not safe to drink and instructed the people to have safe drinking water by purifiers.

At the end of program snacks was distributed to all the participants.
